

# ST. PAUL'S Anglican Church WAIWHETU

***Our Church building is needed—  
by our parish, by our community and by Lower Hutt***

**D**o you believe there should be a sacred Christian space in our parish for people to come and meet with God? Yes, we know that God is everywhere and meets us where we are. But in our church building we have a set place for people to come together and meet with God and thereby be strengthened in faith. We have a place that people know is Holy and is a sanctuary for them. More than that, we stand on the shoulders of those who have gone before us – those who set aside this land for this purpose, those who were given this particular vision, and those who sacrificially gave time, money and labour to build it.

**Our Church makes a difference by:**

**Its presence** – people know it is there for them.

**Its stability and consistency** – it has been here for years, it is rooted in something bigger, beyond ourselves in the world and in history.

**The practice of its people** – Our celebration of the Eucharist, what we invest effort in, what we teach, and how we conduct ourselves. In the way we live out our faith we display discipleship. It is not just imitation — it is participation. We live out *incarnational* lives.

## From the Bishop

The Diocese is in full support of the strengthening project of St Paul's Waiwhetu.

The church is the best vessel for growth. St Paul's is a place to come together to share, pray, gather in peace and silence as well as having a vibrant presence for all people in that Community.

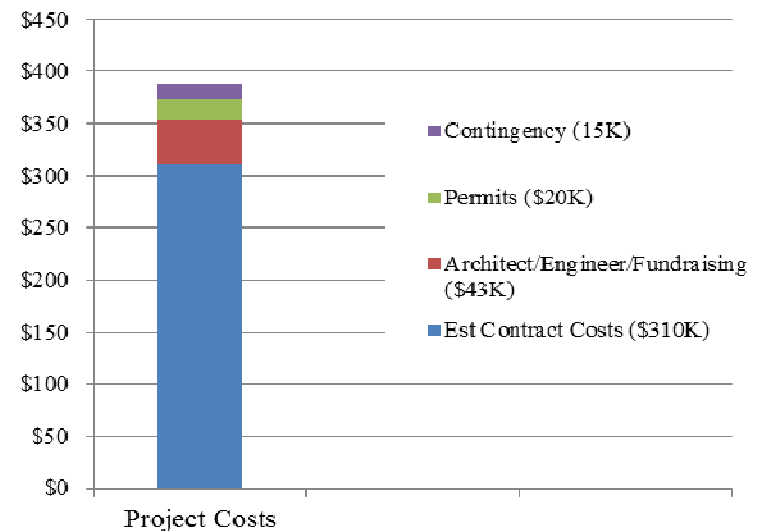

I strongly recommend that this important work be done for the good of the Church and its people.
